EDUCATION

J.C Bose University Of Science And Technology, YMCA — Faridabad, Haryana, INDIA
B.Tech **Computer Science** — *Oct. 2022 – Jul. 2026*

Senior Shree Ram Model School — Faridabad, Haryana, INDIA
*XII : percentage: **92%*** — *Jun. 2022*
*X : percentage: **87%*** — *Jun. 2020*

ACHIEVEMENT

Codechef : 1629 Global rank on codechef starter125(div3)
College Competition: Achieved 2nd rank and Earned Coding Knight Badge for best website creation for clubs
Martial Arts: Awarded multiple medals in martial arts competitions

Professional EXPERIENCE

TDP Vista *Full Stack Developer* — Remote | *Jul. 2023 – Sep. 2023*
Developed and maintained web applications: TechBytes – Daily Tech related stuffs, Chit Chats – Fully Optimized Real Time Chat Platform, MovieTime – free movie streaming service

- : Applied advanced backend operations for smooth application functioning.
- : Worked on optimizations for better user experience.
- : Created visually appealing user interfaces for enhanced user experience.

Alliedge Technologies *Frontend Developer* — Remote | *Aug. 2023 – Sep. 2023*

- : Revamped the product's landing page, providing it with a contemporary aesthetic and an enhanced user interface for a more modern appeal.
- : Orchestrated the integration of Stripe using MongoDB & Node.js, into the product's functionality, establishing an *optimized payment gateway* and initiating a consistent revenue Stream.

PROJECTS

XShare *(File Sharing)* | Next.js, Webrtc, Socket.io, React.js, Typescript | Code

- Built a secure, end-to-end encrypted P2P file sharing application using WebRTC for direct peer connections, ensuring privacy and data integrity.
- Implemented robust file transfer protocols to handle efficient data exchange between peers, optimizing transfer speed and reliability

TechBytes *(Daily Tech Stuffs)* | React.js, Redux, Node.js, MongoDB, Bootstrap | Link | Code

- Implemented functionalities like comments, likes, following , creating posts, searching, authentication, animations, and category blogs.
- cloud functionalities like cloud image uploading using *cloudinary*

MovieTime *(**Free** Movies Streaming Service)* |MERN, Tanstack Query, TailwindCSS | Link | Code

- Option of multiple servers to see the movies and series for free , stunning and catchy UI
- Implemented functionalities add to watchlists, caching movies/series using Tanstack query (react-query)

Chit Chats *(Real Time chat platform)* |React.js, Socket.io, MongoDB, Node.js| Link | Code

- Implemented functionalities of private/group chats, advanced backend operations, notification system, performance optimization, document sharing and many more.

SKILLS & TECH STACK

JavaScript | TypeScript | React.js | Next.js | Prisma | Redux Toolkit | Tailwind CSS | MUI | Node.js | Webrtc | Socket.io | Express.js |MongoDB | Tanstack Query | Git | MySQL | FireBase | Socket.io | Postman | Python | Django | Github | Clerk | Vercel | OpenAI
